

# Eavesdropping

Cobi

You know he's trouble  
He won't blink  
To find someone new  
That better suits him  
Always on the road  
Don't know where he's been  
Only loves his music  
And not a damn thing else  
He won't tend to all your needs  
But I do  
He won't do your laundry  
The way that I do no  
Won't clean up your messes  
Care about your stresses  
I might be overstepping  
But I can't help myself  
I might have been

Eavesdropping  
I thought I heard you say  
Something about that pretty man  
What was his name? Cobi  
I don't ever wanna hear his music again  
Oh you gotta stop it  
Girl you know you're banned from him  
Eavesdropping  
I saw his picture in your phone  
I know you fantasize about him  
When we're trying to get it on  
I know his beard might be a little better than mine  
But I promise you he'll love you then he'll leave you behind  
Eavesdropping

Maybe I care  
A bit too much  
About what you thinking  
And who you got a crush on  
Call me insecure  
Or call me out of line  
Just a bit concerned that I'm running out of time with you  
He won't do all the things that I do  
Bending over backgrounds the way that I do  
Cave in when you press him  
Baby count your blessings  
I might be overstepping  
But I can't help myself  
I might have been

Eavesdropping  
I thought I heard you say  
Something about that pretty man  
What was his name? Cobi  
I don't ever wanna hear his music again  
Oh you gotta stop it  
Girl you know you're banned from him  
Eavesdropping

I know you fantasize about him  
When we're trying to get it on  
I know his beard might be a little better than mine  
But I promise you he'll love you then he'll leave you behind  
Eavesdropping

I really love his music  
But my boyfriend hates it when I listen to it  
He gets so jealous  
But if he only knew  
Cause damn  
What I want to do to that man  
I wanna suck his

I might have been  
Eavesdropping  
I thought I heard you say  
Something about that pretty man  
What was his name? Cobi  
I don't ever wanna hear his music again  
Oh you gotta stop it  
Girl, you're banned from him  
Eavesdropping
