

Everything You Need

Cobi

Heartache and misery
On replay
We have a history
This old flame
You say you're in love with me
Push me away
I don't hear no sympathy
When you say my name

You fuck me up
I lose my face
It's just a touch
Is all it takes
Oh I'm holding on
But you run free
Is there something wrong with me?
Am I not everything you need?

Insult to injury
Passion play
I gave you a child
Thought I could make you stay
The power you have over me
Am I just your slave?
You've taken my dignity
You treat me this way

You fuck me up
I lose my face
It's just a touch
Is all it takes
Oh I'm holding on
But you run free
Is there something wrong with me?
Am I not everything you need?

I'm trying to be everything
Everything you need

I guess I finally pay the cost
For all of my self sabotage
I finally see
I'm trying to be someone I'm not

You fuck me up
I lose my face
It's just a touch
Is all it takes
Oh I'm holding on
But you run free
Is there something wrong with me?
Am I not everything you need?
Is there something wrong with me?
Am I not everything you need?
I'm so tired of trying
To be everything you need
