

Go 2 Sleep

Cobi

Oh, little Kaia Ray
Don't be hasty, you're just a baby now
Know you can drift away
To this lullaby when you hear the sound
Go to a higher place
You don't ever have to be afraid
Just close your eyes and dream of love
You don't have to fight today

Just go to sleep
Go to sleep
Go to sleep tonight

Doesn't matter time of day
It's only child's play for you right now
Even when the sky is grey
You're the sunshine coming through the clouds
I know you won't hesitate
To go and fly away
When you come of age
But for now just dream of love
You don't have to fight today

Just go to sleep
Go to sleep
Go to sleep tonight
You can go to sleep
Go to sleep
Go to sleep tonight

Oh, I'll tell you a story of the glory I found
And how walls will crumble when you reach deep down
It may take you awhile to figure it out
But you don't have to worry now

Just go to sleep
Go to sleep
Go to sleep tonight
You can go to sleep
Go to sleep
Go to sleep tonight
You can go to sleep
Go to sleep
Go to sleep tonight

(Sleep tonight)
