

Goddess

Cobi

Future you hold all my sorrows
The past she was good to me
She said all my time here is borrowed
She's counting the days
I bit off more than I can swallow
She plays with my fantasies
She's making me think I'm Apollo
She takes me away

I don't know what she knows
But I know in my heart the past is gone
Caught in the afterglow
Been dreaming too much I'm coming down
Her secrets she withholds
Now I'm at her mercy I'm her pawn
She won't let me go
I'm in the arms of a goddess tonight

You make me believe
You make me believe
I'm in the arms of a goddess tonight
You make me believe
You make me believe
I'm in the arms of a goddess tonight

Take me to heaven above
There's not enough love in the world
Take me to heaven above
There's not enough love in the world

Testing my will with temptation
she lays down in front of me
I'm only rewarded for patients when I play her game
She picks up on all my vibrations
And plays with my chemistry
She tricks me with all of these visions
Then takes them away

She knows how to control
The thunder and rain or dusk to dawn
She's spinning a tornado
She screams like a banshee all night long
And that's how the story goes
I'll burn in the flames of glory cause
She won't let me go
I'm in the arms of a goddess tonight

You make me believe
You make me believe
I'm in the arms of a goddess tonight
You make me believe
You make me believe
I'm in the arms of a goddess tonight

Take me to heaven above
There's not enough love in the world
Take me to heaven above

There's not enough love in the world

She knows how to control
The thunder and rain or dusk to dawn
She's spinning a tornado
She screams like a banshee all night long
And that's how the story goes
I'll burn in the flames of glory cause
She won't let me go
I'm in the arms of a goddess tonight

You make me believe
You make me believe
I'm in the arms of a goddess tonight
You make me believe
You make me believe
I'm in the arms of a goddess tonight

Take me to heaven above
There's not enough love in the world
Take me to heaven above
There's not enough love in the world
