

Music Is Healing

Cobi

Even though
It seems so hard today
Gotta wipe
That sad look off your face

Take some time
To put down the heavy baggage
Close your eyes
And tune in to higher places

Be your best friend
When you're feeling low down
Make you wanna cry
Bring you to your knees
Music is healing
Healing
If you let it be

Don't have to have a dime
To your name to know how
Make you feel alive
Can set you free
Music is healing
Healing
To you and me

When life gives
You more than you take
And it's hard to find
An excuse to celebrate

The journey is
Better than the destination
Come find me
If you need a consolation

Be your best friend
When you're feeling low down
Make you wanna cry
Bring you to your knees
Music is healing
Healing
If you let it be

Don't have to have a dime
To your name to know how
Make you feel alive
Can set you free
Music is healing
Healing
If you let it be

Oh
You're not alone
I don't know where we come from
All I know
Is you take me

Home...

Be your best friend when
You're feeling low down
Make you wanna cry
Bring you to your knees
Music is healing
Healing
If you let it be

Don't have to have a dime
To your name to know how
Make you feel alive
Can set you free
Music is healing
Healing
If you let it be
