

# Operator

Cobi

Every bone in my body  
Told me to stay away  
Stay away from you  
That you'll burn me bad

Oh I wish I would've listened  
To what they had to say  
I was such a fool  
To fall for you

Operator get me through  
She went and blocked my number  
Operator  
Tell me what can I do  
She said she's gonna run away  
And she's pregnant with my baby  
Operator  
Tell me it ain't true

Riding on the borderline  
Of insanity  
Jumping off a ledge  
You got in my head

You pulled at the weakness  
Of my vanity  
Took me to your bed  
I got drunk on you

Operator get me through  
She went and blocked my number  
Operator  
Tell me what can I do  
She said she's gonna run away  
And she's pregnant with my baby  
Operator  
Tell me it ain't true

Operator get me through

She said she's gonna run away

Operator get me through  
I said I need some answers  
Operator  
Tell me what can you do  
She said she's gonna run away  
With another man to raise my baby  
Operator  
Please please tell me it ain't true  
Operator get me through  
Please please tell me it ain't true  
She said she's gonna run away  
And she's pregnant with my baby  
Operator  
Please please please tell me it ain't true
