

Shadows

Cobi

I've been watching the shadows move on the wall
I've been sticking around just to figure them out
I've been moving about trying to get out the light
I turn around to find out I've been up all night

Cause when the sun comes up
Where am I gonna take them
The shadows follow me
I never can escape them

If I have a demon I must have an angel
I'm stuck in the night tell me where did the day go
I wanna take off the horns and put on a halo
I'm losing my high
Oh woah

Now I'm never alone cause I'm follow around
They always know where I am they've got me figured out
I never turn my back I'm not gonna lie
The other side of the light is where the shadows hide

Cause when the sun comes up
Where am I gonna take them
The shadows follow me
I never can escape them

If I have a demon I must have an angel
I'm stuck in the night tell me where did the day go
I wanna take off the horns and put on a halo
I'm losing my high
Oh woah

I hear a ghost whisper my name
And she says come out to play
Come out to play
I look behind me just to be safe
Am I going insane
Going insane
Love come closer
Come and pick me up I know her name
She's the darkness holding
My heart folding endlessly

If I have a demon I must have an angel
I'm stuck in the night tell me where did the day go
I wanna take off the horns and put on a halo
I'm losing my high
Oh woah
I'm losing my high
Oh woah
I'm losing my high
Oh woah

Ooh...
