

# Skin Deep

Cobi

Ooh...  
Who you telling?  
I'm telling you  
Hear what I say now  
About your grace  
Your spirits so free, baby

More than skin deep  
You were born that way  
Never had a need  
For the makeup on your face  
Sweet  
Cherries in the trees  
You play your part in  
The great mystery

I...  
Swear by lines on my face  
Thousands of life times  
I'll find you in every one  
Won't leave to fate  
We...  
Travel through time and space  
Parallel lines because  
Deep down we feel the same  
The way we look will change

It's more than skin deep  
You wear your beauty that way  
Going underneath  
Exploring in a crystal cave  
Seeds  
Blowing in the breeze  
This life is so much  
More than it seems

I...  
Swear by lines on my face  
Thousands of life times  
I'll find you in every one  
Won't leave to fate  
We...  
Travel through time and space  
Parallel lines because  
Deep down we feel the same  
The way we look will change

Ooh...  
Who you telling?  
I'm telling you  
That I love you  
Hear what I say now  
About your grace  
Your spirits so free baby
