

# Underneath

Cobi

Oh girl you know I've been underneath  
The ground is pulling me in  
You're in my head and then you're MIA  
Lights of the city in your eyes

How many times  
They try to steal my Mona  
Walking through the fire  
I can be the water on ya  
I'll be just fine you said  
Using words like love and light  
And love  
And love  
And no... no... please don't go no no no no

You're headed for the rope  
Chose blessings over hope  
Don't let em  
Pull you underneath  
Butterflies and dinosaurs  
We already set our course  
We're all headed  
Headed underneath

Please pull my headstone off of me  
My lonely garden needs seeds  
And all the children coming out to play  
Don't know the cities on fire

How many times  
Do they make you cry oh Mary  
Like a flower rise  
To a hurricane wind blowing  
I happened by just then  
Walking through the cold and ice  
I held you tight  
I hold ya  
Hold ya I won't go no no no no

You're headed for the rope  
Chose blessings over hope  
Don't let em  
Pull you underneath  
Butterflies and dinosaurs  
We already set our course  
We're all headed  
Headed underneath

Doing wrong to get right  
Angles in a gun fight  
Underground  
Underground  
Devil told me it's alright  
Stay the night or stay for life  
Underground  
Underground

You're headed for the rope  
Chose blessings over hope  
Don't let em  
Pull you underneath  
Butterflies and dinosaurs  
We already set our course  
We're all headed  
Headed underneath
