

One Day I'll Never

Cobra Skulls

Well I couldn't afford to pay my rent
So I moved back in with my parents again
I never asked to be put in this earth
But I'd like to be able to prove my own worth
And the tour was pretty good I guess
I don't know if you'd call It a total success
But at least It kept me from being depressed
And I'd do It all again more or less

One day I'll be able to live for today
And I won't be affected by the shit they say
But if I never get there
I don't care if I never get there

And I've got a phonebook full of acquaintances
I could call you up for a show in your town
And I promise to return the favor sooner or later
What comes around goes around they say
But when the good ones finally come around
They just seem to run away
And I know that I'm a cynical bastard
And I'd run away from myself if I could

One day I'll be happy with the way I am
And I won't dwell upon the problems that are out of my
hand
But if I never get there
I don't care if I never get there

One day I'll be able to live for today
And I won't be affected by the shit they say
One day I'll be happy with the way I am
And I won't dwell upon the problems that are out of my
hand
But if I never get there
I don't care if I never get there
