

## Shame On The Cobra

Cobra Skulls

Please don't come back now,  
Everything is changed,  
Starting with a little preposition you used to call my  
name,  
I heard you're still the same, so please don't come back  
now.

Cause there used to be a time I thought I never get along  
without you,  
I get along alright though it took two years to know how,  
And I know that you really don't show any signs of  
turning around,  
But it would be so sad if you did now.

And I heard you been using the same little lines you used  
to use,  
The same little lines that you used to use on me,  
and if what I hear to be true then you've been playin'  
some games girl,  
and what you say don't mean a thing.
