

## Time And Pressure

Cobra Skulls

Traded in the gold for something more combustible  
like time and pressure and by the volume it sold  
but were running out of time  
can you feel the pressure?  
because the gold got stronger in the cold black basement  
of the federal reserve and the shareholders only get older  
older all the time  
and who get's left behind?  
can you feel the pressure?  
were in this together, stand up lend a hand  
or get the fuck out of the way
