One Day Robots Will Cry

Cobra Starship

This won't hurt more than a pinch.
So just pour a drink,
Let's talk it over.

I'm back after all these years.
Don't be afraid my dear,
Now I'm older.

'Cause people change,
Can't you see my eyes?
Are they not the same after the lies?
I know I'm like a machine,
But I still have dreams.
I know one day we will:

Sleep for days.
Come over, come over.
I won't make the same mistakes.
I'm dying not to hurt you.

In our dreams we can be complete again.

When you were young,
You kept a list
Of the things you miss as you got older.

I know you in every life I've lived.
Yeah, I'm still a kid
Even though I'm colder.

When you were a child
I was lost in the wild
But you built a home for me in the grove.
I was born in the cold,
Turn up the heat,
I know one day we will:

Sleep for days.
Come over, come over.
I won't make the same mistakes.
I'm dying not to hurt you.

In our dreams we can be complete
If we go to sleep
We can wake up home again.

(Come on over again, over again.)

Sleep for days,
Come over, come over.
I won't make the same mistakes.
Come over, come over.
I'm dying not to hurt you.

Sleep for days.
I won't make the same mistakes.
Come over, come over.

I'm dying not to hurt you.

In our dreams we can be complete
If we go to sleep
We can wake up home again.

(Come over, come over, come over.)

(Come over, come over, come over.)
