

FEMININE ENERGY

COBRAH

All boys into me
All girls wanna be
Fame and enemies
Vain economy
Genuine jealousy
Sharp stiletto heels
Bisexual dynasty
That's what it's meant to be

Nothing is extreme
Sex in the limousine
Naked in magazines
Natural better me
Blame it on dopamine
The grand infinity
The air, the adrenaline
It's the feminine energy

Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Runs inside of me

Thong to thong, we sweat and then we take it off
The night is long so let your mind get what it wants
There's nothing wrong in owning what you fucking got
Getting stronger, going harder than your favourite god

Nothing is extreme
Sex in the limousine
Naked in magazines
Natural better me
Blame it on dopamine
The grand infinity
The air, the adrenaline
It's the feminine energy

Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Runs inside of me

Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy

Runs inside of me

(Feminine energy)

I know what you need
What's inside of me
Runs in my bloodstream
And you've come to feed
Sink your teeth in it
Make my body breathe
Let your insides free
Feminine energy

Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Runs inside of me

Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Feminine energy
Runs inside of me
