

# U KNOW ME

COBRAH

I can take the nine millimeter on the side  
Swing it by if you like, we can drive to McDonald's  
Hang out with the toddlers  
Sneak out the back, or even do a runner  
Gonna go slow, into the K-hole  
Lick the whole bowl like a kid with Cheerios  
I don't waste my time, only here for the field goal  
Make my clit rise like a flag on a flag pole

Cause you know me, I know you  
You know me just like I know you do  
No identity necessity  
It's what you chose to do  
So give me resurrection  
Or do you believe in the natural selection  
Don't need you to do an exception  
Let's keep it clean like a gel disinfection

Cause you know me  
I know you  
You know me  
I know you  
You know, you know  
You know me  
I know you  
You know me  
I know you  
I know, I know

Ten centimeter, open wide  
I can see what you mean when I go through the tunnel  
Open full frontal  
Caught me flash back up, cause I like it double  
Gonna go slow, or be a no show  
Save the whole world with a hero syndrome  
I'm the new paradigm put it down on the payroll  
Play it, quick time, like a car you could download

Cause you know me, I know you  
You know me just like I know you do  
No identity necessity  
It's what you chose to do  
So give me resurrection  
Or do you believe in the natural selection  
Don't need you to do an exception  
Let's keep it clean like a gel disinfection

Cause you know me  
I know you  
You know me  
I know you  
You know, you know  
You know me  
I know you  
You know me  
I know you  
I know, I know
