

Always Summertime

Cochren & Co.

A permanent vacation
A metaphor for the state I'm in
Yeah, I got a new perspective
A warmer outlook on life
Took a break from the bad news
Realized I got nothing to lose
Tradin' this cold weather attitude
For sunny and 75

Got me feeling like summertime
Ain't no worries on my horizon
Nothing but blue skies
Like the way that I feel inside
Windows down and the music up
Got me smiling whatever comes
I got my own sunshine
When the world gets cold
It's always summertime in my soul

A shooting star in the night sky
Fireworks on the Forth of July
I can't help but look on the bright side
Yeah, something's got a hold of me

Got me feeling like summertime
Ain't no worries on my horizon
Nothing but blue skies
Like the way that I feel inside
Windows down and the music up
Got me smiling whatever comes
I got my own sunshine
When the world gets cold
It's always summertime in my soul

Windows down and the music up
Got me thanking the Lord above
I got my own sunshine
When the world gets cold
It's always summertime in my soul
