

# Future Glory

Cochren & Co.

When lines are drawn for battle  
When daylight turns to dark  
My soul will not be rattled  
This world can't have my heart

When thunder comes to shake me  
Might make a lot of noise  
But it won't ever break me  
Won't ever steal my joy

'Cause I got a future glory  
I know how this thing ends  
There's victory in my story  
I got a future glory

God, you don't waste one moment  
Of what I'm going through  
No struggle can compare  
To the hope I have in You

I got a future glory  
I know how this thing ends  
There's victory in my story  
I got a future glory

Every single struggle  
Every single pain  
Soon will be over  
In Jesus' name  
All of our burdens  
All of the weight  
Gonna be lifted  
In Jesus' name

Every single struggle  
Every single pain  
Soon will be over  
In Jesus' name  
All of our burdens  
All of the weight  
Oh, it's gonna be lifted  
In Jesus' name

I got a future glory  
I know how this thing ends  
There's victory in my story  
I got a future glory
