

## Whole World

Cochren & Co.

I don't need an answer  
I don't need clarity  
In all of my questioning  
I just need You here with me  
Even if you told me  
Still I may not understand  
So I choose to trust You  
I believe You have a plan

You've got the whole world in your hands  
Sing it out loud, sing it out now  
You've got the whole world in your hands  
Nothing to fear, finding peace here  
You wrote the ending from the beginning  
You've got the whole world

You are never caught off guard  
You have never been surprised  
All that is in the dark  
You will bring to the light  
Evil may have its day  
This world may break my heart  
But you will have the final say  
Your goodness works through it all

You've got the whole world in your hands  
Sing it out loud, sing it out now  
You've got the whole world in your hands  
Nothing to fear, finding peace here  
You wrote the ending from the beginning  
You've got the whole world

The same God who carved out  
The depths of the ocean  
Knows every longing deep in my heart  
Nothing is wasted  
Nothing is missing  
Nothing forgotten  
You hold it all yeah

You've got the whole world in your hands  
Sing it out loud, sing it out now  
You've got the whole world in your hands  
Nothing to fear, finding peace here  
You wrote the ending from the beginning  
You've got the whole world

You've got the whole world  
Oh, you've got the whole world
