

Make Your Own Kind of Music

Cock Robin

Nobody can tell you
There's only one song worth singing
They may try and tell you
Cause it hangs them up
To see someone like you

Make your own kind of music
Sing your own special song
Make your own kind music
Even if nobody else sings along

You're gonna be nowhere
The loneliest kind of lonely
It may be rough goin'
Just to do your thing's the hardest thing to do

You're gonna make your own kind of music
Sing your own special song
Make your own kind music
Even if nobody else sings along

So if you cannot take my hand
And if you must be goin', I will understand

Go on...

Make your own kind of music
Sing your own special song
Make your own kind music
Sing your own special song
Make your own kind of music
And sing...

Even if nobody else sings
Even if nobody else sings
Even if nobody else sings

Even if nobody else sings - sing
Even if nobody else sings - sing...
