Touched

Cock Robin

Dry your eyes Cry no more Help has come Get off the floor You're still young

Always thought You were blessed But you were touched And all the rest Will turn to rust

Someday your love Will set you free Way down inside You'll find a sanctuary

Don't know where To begin Chase your tail Into a spin Then set sail again

Someday your love Will set you free Way down inside You'll find a sanctuary

Find your place In the sun Your enemies Are on the run Get off your knees And go

Come Just come
