Coco & Clair Clair

Got me worried your friends don't like me
Not even thinking about how they don't excite me
I just wanna be enticing, tell me I'm enticing
That's enough okay don't care if I'm even enticing
Can't you tell I'm icy?
Got a sexy car I'm driving
Tell that bitch to move 'cause true love is arriving

You're so cool
I wanna be with you
Everything you do
And in your dreams too
'Cause even when it's bad
It's the best I've ever had

Do you see me how I want you to see me?
Do you think I'm cool if I watch this movie?
I looked at your ex
She looks like a floozy
I don't care that much
'Cause what I got is juicy
What's it called when bitches want what you got?
Lovesick off this Cupid shot
Come and get it while it's hot
Don't wanna change, not gonna stop
Feels like I'm scuba diving in your bliss
In so deep don't wanna miss
'Cause true love is arriving

You're so cool
I wanna be with you
Everything you do
And in your dreams too
'Cause even when it's bad
It's the best I've ever had
