

I'm drunk  
Hmm  
Aye, woah

Look at the back, the front  
The back, the front  
Look at the side to side  
The side to side  
Look at the back, the front  
The back, the front  
Look at the side to side  
The side to side

No you can't get with this 'cus we matched on Tinder  
Karaoke time, sing a song by Hinder  
Hips don't lie  
Got me yodeling, Shakira  
Saw the back from the front  
Needed no mirror  
Chloe Sevigny, I'm the new it girl  
American Psycho, welcome to my world  
It's my booty from the front  
It's my curves from the side  
It's my body and my waist  
Twerking in the limelight

Tell a bum bitch she can kiss my bum bum  
I'm in the back drinking Dom Perignon  
You can look at it but no you can't touch  
And if you get too close I'm throwing bottles in the club

Look at the back, the front  
The back, the front  
Look at the side to side  
The side to side  
Look at the back, the front  
The back, the front  
Look at the side to side  
The side to side

Pull me by the waist we might have a problem  
Knock a bitch out now she puffy, pollen  
Booty game cheerful, other bitches solemn  
Some gurlies wanna flex with no spinal column  
It's my booty from the front  
It's my curves from the side  
It's my body and my waist  
Twerking in the limelight  
It's my booty from the front  
It's my curves from the side  
It's my body and my waist  
Twerking in the limelight

Look at the back, look at the front  
Look at the side to side, the side to side  
Look at the back, the front  
The side to side
