

Ask me if care, no
Coco & Clair hoe
We like to party hardy, yeah we get a little naughty
When I walk in the club they say "treat like gold"
And I do what I want, you do what you're told

Not worried about no wild boar lookin' ass trick
And I wasn't before you stupid little snitch
Am I in the club or is this Salem? You look like a witch (Sabrina)
They treat me like gold and I'm not even rich
I got these diamonds on my neck
See me grindin' all this sweat
I'm not whinin', no regrets
Got no worries, just assets
Choppin' choppin', never seen a brick but I know how to rock it
Poppin' poppin', gonna throw ass and you can't stop it

Ask me if care, no

And I do what I want, you do what you're told

I'm a primadonna, your favorite baby momma
Walk into the spot, they all pause like a comma
Never am I lonely, never am I phony
Bitches all mad so salty like baloney
All the soldiers come my way
Take a picture I've saved the day
War is over the second I say and if it's not my knife will play
Grab the hostess, we need more guns
We're in a war and it might be fun
Join the side, do what you're told
And I'll make sure you're treated like gold
