

Come Over

Coco Jones

What are you on
What are you up to
I'm in my bed and
I'm thinking bout you
Where are you going
Who got your late night
I'm in my bed and
Something don't feel right

We could be boo'd up
You and me
Weekend fantasy
Drinking Hennessy
Till infinity
So you come fill me up
I pretend it's love
I can't get enough
Uh huh...

If you wanna come over
Wanna come over
We be on something
We could just do nothing
If you wanna come over, wanna come over, wanna come over
Just hit my phone up
If you wanna come

Where is this going
I know that I asked for one night
I'm lost in moment
Body so warm and vibe right
It's you and I know it
You could be more than just side
So where is this going
Where is it going baby

We could be boo'd up
You and me
Weekend fantasy
Drinking Hennessy
Till infinity
So you come fill me up
I pretend it's love
I can't get enough

If you wanna come over
Wanna come over
We be on something
We could just do nothing
If you wanna come over, wanna come over, wanna come over
Just hit my phone up
If you wanna come

Whoo, ah
You and me
Weekend fantasy
Drinking Hennessy

Ooh oh
So you come fill me up
I pretend it's love
Get enough of you baby

If you wanna come over
Wanna come over
We be on something
We could just do nothing
If you wanna come over, wanna come over, wanna come over
Just hit my phone up
If you wanna come

Hey, just hit me up, baby
