

Keep It Quiet

Coco Jones

I guess we see it differently (Differently)
I don't play with you, but you play with me
You changed your mind, it's embarrassing, ooh, oh

Hurt people, hurt people, I wanna love you
Don't make me give up on you, giving in to temptation
You lose me if I lose my patience, oh, oh

Do it skillfully, just when I feel like I'm catching on
You take my clothes off, make me forget it all
Hate you, I love you, all back and fourth
All that I'm askin' for

Just keep it quiet
Don't make a scene of my heart, babe
Keep all your secrets in private
Don't make a good girl get violent
If you gon' spray on me, keep it, love
I pop shit too, I gotta make it go
Keep my composure until I don't, oh
I pop shit too, I got a big ego

I don't wanna think about it, fight about it, fuck about it, cry
Think about it, fight about it, fuck about it, why
When I could just let your homeboys lie
You think you know me, got one more side

I'll do it skillfully, just when I feel like I'm catching on
You take my clothes off, make me forget it all
Hate you, I love you, all back and fourth
All that I'm askin' for

Just keep it quiet
Don't make a scene of my heart, babe
Keep all your secrets in private
Don't make a good girl get violent
Don't make me
If you gon' spray on me, keep it, love
I pop shit too, I got a big ego
Keep my composure until I don't, oh
I pop shit too, I got a big ego

I don't wanna think about it, fight about it, fuck about it, cry
Think about it, fight about it, fuck about it, why
When I could just let your homeboys lie
You think you know me, got one more side

I don't wanna think about it, fight about it, fuck about it, cry
Think about it, fight about it, fuck about it, why
Think about it, fight about it, fuck about it, cry
