

Love Is War

Coco Jones

My, what have we done?
Try love, they'd said it fun (Ooh)
What a hell of a run
No breaks on the ride down (Oh)

Silence in the room
Baby, when we lie down ain't no rules
Our love light has fallen light a fuse, light a fuse
We could've done better but we just couldn't let us
I won't tell but you gotta give it time first (Yeah)
If the shit blow up let it be a firework (Oh)

Love is war, me against you
I know you got scars, I've got them too
Too deep, too long, we're too gone
Too deep, miss me with the white flag

Love is war, me against you
I know you got scars, I've got them too
Too deep, too long, we're too gone
Too deep, miss me with the white flag

Why is this love one step away from destruction?
First we on then we off, why don't we raise a glass
Pop bottles of emotions, Mazel tov (Oh)

Silence in the room
Baby, when we lie down ain't no rules
Our love light has fallen light a fuse, light a fuse
We could've done better but we just couldn't let us
I won't tell but you gotta give it time first (Oh)
If the shit blow up let it be a firework (Oh)

Love is war, me against you
I know you got scars, I've got them too
Too deep (Oh), too long, we're too gone
Too deep, miss me with the white flag

Love is war, me against you
I know you got scars (I know you got), I've got them too
Too deep, too long, we're too gone
Too deep, miss me with the white flag

Oh-oh, with the white flag
(Too deep, too long, we're too gone)
(Too deep, miss me, yeah)
Ooh-ooh, yeah, yeah
