

On Sight

Coco Jones

I wanna lay with you all night (Wanna lay)
And after that, let me ride (Ride)
When you say it's on sight (Sight)
Don't lie

Tell me not to leave
Tell me what you mean
My heart is on my sleeve
Come and see, come and see, baby
If you talk like that, it's on
No sleep until the morn'
Is that what you want?

Got shit on the side, put it on the table
Why don't you just come over when you ready and able?
Said you want somebody that can put it on you crazy
Boy, I'll treat you better, these other bitches lazy
If you didn't know, baby, I'm the realest
Don't give me the runaround, tell me what the deal is
I could make this moment feel like a lifetime

I wanna lay with you all night (Wanna lay)
And after that, let me ride (Ride)
When you say it's on sight (Sight)
Don't lie

Come show me what you mean
Don't hide your feelings
Love me, oh, now, now, now, now
And I know you can't believe
That your soul would ever receive
This kinda love

Got shit on the side, put it on the table
Why don't you just come over when you ready and able?
Said you want somebody that can put it on you crazy
Boy, I'll treat you better, these other bitches lazy
If you didn't know, baby, I'm the realest
Don't give me the runaround, tell me what the deal is
I could make this moment feel like a lifetime

I wanna lay with you all night (Wanna lay)
And after that, let me ride (Ride)
When you say it's on sight (Sight)
Don't lie

Don't, don't, don't
Don't lie
On, on, on
On sight
Don't, don't, don't
Oh
On sight
Don't, don't, don't
Don't lie
On, on, on
On sight

Don't, don't, don't
Baby, baby, baby, oh

I wanna lay with you all night (Wanna lay)
And after that, let me ride (Ride)
When you say it's on sight (Sight)
Don't lie

Oh
Oh
Oh-oh
