

Over It

Coco Jones

Yo, what are you talkin' about, like...
Naw, I don't be talking to any other girls, man
Like calm down, like...
Like, you just stay cool

We don't need to talk
I already said everything that I
Needed to say
And there's no need for you to try and change
It's [?]

Finally let you go
I'mma miss you so bad
Promise you lost the best thing that you ever gon' have

'Cause I'm over it
I'm over it, I'm over it
I'm over it, I'm through

I'm over it
I'm over it
I'm over it

Dippin in passion
In you it's lackin'
The way you been actin', baby
Where are your manners?
You can burned up, runnin' yo mouth so crazy
I fell for you rapid
I overreacted, yeah
You barely deserve a taste of me
So try to imagine

'Cause I'm over it
I'm over it, I'm over it
I'm through

I'm over it
I'm over it
I'm over it

'Cause I'm over it
I'm over it, I'm over it
I'm through

I'm over it
I'm over it
I'm over it

When we used to talk
I ain't even have to ask you
Roll up and bring me flowers
We'd be on the phone for hours
Now I gotta be a savage
Now it doesn't even matter
It's too late

One more time

Finally let you go
I'mma miss you so bad
Promise you lost the best thing that you ever gon' have

'Cause I'm over it
I'm over it, I'm over it
I'm through

I'm over it
I'm over it
I'm over it

Drippin' in passion
In you, it's lacking
The way you been actin', baby
Where are your manners?
You can get burned up, runnin' yo mouth so crazy
I fell for you rapid
I overreacted, yeah
You barely deserve a taste of me
So try to imagine

(Baby) 'Cause I'm over it
I'm over it, I'm over it
I'm through

I'm over it
I'm over it
I'm over it (I'm over it, I'm through, yeah)

'Cause I'm over it
I'm over it, I'm over it
I'm through

I'm over it
I'm over it
I'm over it (yeah)

Every night I wait for you at home (every night I wait)
Messages and numbers I don't know (I'm over it)
Playing games, I thought that you were grown (I'm over it)
Rather be alone
Better on my own
