

Spend The Night

Coco Jones

Time is tickin' baby, take a load off (And don't hold back)
I'll take the weight up off your shoulders (You know I'll do that)
Wake up to lovin' in the morning (Hot sex)
If you spend the night with me

Rollin' around from the floor to the bed
Can't get you out of my mind
You live free in my head
Stuck inside a lucid dream
Everything's what it seems
Come closer to me, come closer to me, yeah
Into the night I see stars in your eyes
Got me trippin' hypnotized from the way that they shine
Stuck inside a lucid dream
Everything's what it seems
Come closer to me, come closer to me, yeah

Don't wanna think about it, think about it
Do it, do it, do it 'til the doing feels right, yeah
Don't wanna think about it, think about it (Ooh-la-la-la)
Don't wanna think about it, think about it
Do it, do it, do it 'til the doing feels right, yeah
We can do it all night, yeah, yeah, yeah

Time is tickin' baby, take a load off (And don't hold back)
I'll take the weight up off your shoulders (You know I'll do that)
Wake up to lovin' in the morning (Hot sex)
If you spend the night with me

Yeah
It's the way that your body's down on my body
Boy it's a party
Can't lie I'm addicted, want it like quick, quick
Baby you started it
I know that you feel it too
You got me inside my head
I'm thinkin' 'bout things you do-do-do
Come closer boy, the night's over when I say it's over (Yeah, yeah)
When I touch you baby then you touch me, I wanna be closer (Yeah, yeah)
Love it when you wake me up like coffee, no Folgers, ooh-wee
Got a feelin' that you might get lucky, no clover

Don't wanna think about it, think about it
Do it, do it, do it 'til the doing feels right, yeah
We can do it all night, yeah, yeah, yeah (Ooh)

Time is tickin' baby, take a load off (And don't hold back)
I'll take the weight up off your shoulders (You know I'll do that)
Wake up to lovin' in the morning (Hot sex)
If you spend the night with me
Time is tickin' baby, take a load off (I won't hold back)
I'll take the weight up off your shoulders (You know I'll do that)
Wake up to lovin' in the morning (Hot sex)
If you spend the night with me (Ooh)

Come and spend the night, come and spend the night
Baby

Night, yeah
Come and spend the night, come and spend the night
I know, oh
