# Hush

**Coco Lee**

Ohhhhhh.....yeah.....baby....
Hush now keep our love quiet.
It must stay on the low.
And I know it ain't easy, but nobody else has to know.

You and me got a chemistry between us.
And I truly feel, that you are the one I dream of.
I wanna tell the whole world, that you're mine (but I can't)

Try to understand the situation I'm in.
Baby, I got plans and now it's not the timing.
One day I'll tell the whole world - I'm your girl.
I'm your girl.
Oh...

Hush now.
Keep our love quiet - quiet (Don't say a word)
It must stay on the low.
And I know it ain't easy, but nobody else has to know.

Hush now.
Keep our love quiet - quiet (Don't say a word)
It must stay on the low.
And I know it ain't easy, but nobody else has to know.
(It ain't easy for you baby.)

Laying next to you with your arms around my body
Never felt so good
But I can't tell nobody.
I'm waiting so patiently, wait for me, baby.
The very thought of you alone can drive me crazy.
And I picture you the father of my baby
I'm praying desperately and I do believe.

Hush now.
Keep our love quiet - quiet (Don't say a word)
It must stay on the low.
And I know it ain't easy, but nobody else has to know.
Hush now.
Keep our love quiet - quiet (Don't say a word)
It must stay on the low.
And I know it ain't easy, but nobody else has to know.
(It ain't easy for you baby.)

Cause we are destined to be in love.
When the time comes we'll tell everyone.
But till then don't say nothing.
Wanna wait till we got something solid.
