

Baby

Cocoon

Sunday morning
Yuki's on the bed
I wake up to you kissing me
You take my hand
And tell me that you love me
There's magic in the words you speak

Then a bolt of lightning
Comes down and strikes me
I can see the tears in your eyes
It's so amazing
I never felt so alive

We're having a baby
We're having a baby, baby
Isn't it crazy
How much I love this bump on your belly

Holy shit
Got a lil' one on the way
Who's gonna take care of me?
You say "Baby, calm down
It's gonna be okay
Just be yourself and let it be."

Then a bolt of lightning
Comes down and strikes me
I can see the tears in your eyes
It's so amazing
I never felt so alive

We're having a baby
We're having a baby, baby
Isn't it crazy
How much I love this bump on your belly

Oh my god oh my god oh my god oh my god

We're having a baby
We're having a baby, baby
Isn't it crazy
How much I love this bump on your belly
