

Creation

Cocoon

More life
I need more life
I see the glass getting empty
More life
Give me more life
What's coming next I'm not ready

I've drunk all the potions
I've checked every option
We're fucked in slow motion
Release all the tension

More life
I need more life
Is there a debt I never paid?
More life
Give me more life
Is there a mistake that I've made?

I've asked all the questions
Resolved the equation
There's no resurrection
There's only creation
Only creation
There's only creation

More life
