

# Don't Rush

Cocoon

Don't Rush  
We've got all the time  
Just let this very note sustain  
We've got all the time babe  
Just let this blurry night remain

Oh baby don't rush  
Don't rush  
I just want your touch  
Don't rush  
Don't rush

My god you make me blush  
I know you know one thing or two  
Just show me what you can do  
I'll come a lil too fast  
Don't you look at me like that  
You like it when it's soft and slow

Oh baby don't rush  
Don't rush  
You make me blush  
Don't rush

I have a little crush  
Baby there's no rush  
(Baby there's no rush)  
(Baby there's no rush)

I have a little crush  
Baby there's no rush  
I just want your touch  
Don't rush

I have a little crush

I have a little little crush...
