

# Get Well Soon

Cocoon

It's been a though year for everybody  
It's been a though year for my family  
It's been a though year for everybody  
It's been a though year

Mama's gone around the bend  
She hears voices in her head  
Now with all the drugs she takes  
She can't recognize my face

May she get well soon  
May she get well soon  
I'm trying to break the spell  
May we get well soon  
May we get well soon  
I'm trying to break the spell  
We will get well

It's been a though year for everybody  
It's been a though year for my family  
It's been a though year for everybody  
It's been a though year

Oh my baby's heart is weak  
And he might need surgery  
But the doc's optimistic  
Say we need to wait and see

May she get well soon  
May she get well soon  
I'm trying to break the spell  
May we get well soon  
May we get well soon  
I'm trying to break the spell  
We will get well

It's been a though year  
It's been a though year

Found a faded photograph  
Dated 1949  
With a gleam in grandma's eyes  
We'll be allright in the end

Oh may we get well soon  
May we get well

It's been a though year  
It's been a though year  
I'm trying to break the spell  
It's been a though year  
It's been a though year  
It's been a though year  
It's been a though year

I'm trying to break the spell  
It's been a though year  
May we get well  
It's been a though year  
I'm trying to break the spell  
It's been a though year  
May we get well  
It's been a though year
