

# I Got You

Cocoon

Close your eyes  
Count to ten  
You'll be fine  
Take my hand

From highways to dead ends  
In tall waves and canyons  
In the heart of darkness  
When your life is a mess

I got you, and you got me  
Like the colors got the blue  
I got you, and you got me  
Like the numbers got the two

And in case of danger  
I will come to the rescue  
A soulmate, an angel  
I got you, I got you

So close your eyes  
Count to ten  
The green pines  
Can you see them?

From highways to dead ends  
In tall waves and canyons  
In the heart of darkness  
When your life is a mess

I got you, and you got me  
Like the colors got the blue  
I got you, and you got me  
Like the numbers got the two

And in case of danger  
I will come to the rescue  
A soulmate, an angel  
I got you  
I got you (I got you, you got me)

I got you (I got you, you got me)  
(I got you, you got me)
