

Retreat

Cocoon

Stop calling me
I won't pick up, I need to be alone
Don't be dismayed
I've fallen once and I'd fall again

Oh, I don't know what's best, for me lately
I'm sorry to cause you pain
Maybe I need a rest, some time away, before we start over again

When was the last time
We had a first time?
But don't, don't be dismayed
I've risen once and I'll rise again

Oh, I don't know what's best, for me lately
I'm sorry to cause you pain
Maybe I need a rest, some time away, before we start over again
Oh, before we start over again

Oh, I don't know what's best, for me lately
I'm sorry to cause you pain
Maybe I need a rest, some time away, before we start over again
Oh, before we start over again
Oh, before we start over again
