

# Shadow

Cocoon

I was close to the edge  
Almost didn't come back  
Went too far 'round the bend  
Now I'm miles off the track

And I got all I need  
Somewhere I can be  
Someone next to me  
To sing along  
And I could be complete  
Feel no gravity but

No matter where I go  
There's always a shadow  
No matter where I go  
There's always a shadow

Went too close to the fire  
Got ashamed of the scars  
I won't be called a liar  
So I hide in the dark

And I got all I need  
Somewhere I can be  
Someone next to me  
To sing along  
And I could be complete  
Feel no gravity

No matter where I go  
There's always a shadow

No matter where I go  
There's always a shadow  
Today I'm flying high  
I'll come down tomorrow  
Come down tomorrow  
Come down tomorrow

There's always a shadow...
