

Sweet Lena

Cocoon

I dreamt I shed
My red groom suit
And made our bed
On needles and roots

I kiss your hand
On the damp ground
An imagined land
A paradise found

If you dance to forget
Let the light play on
Through the pine shadows
Till the darkness is gone

Let the light play on
Till the darkness is gone.

There is no fear
In this golden light
I whisper in your ear
"It's gonna be alright"

All sadness erased
From your sunlit face
By the trees that sway
With your dancing shade

If you dance to forget
Let the light play on
Through the pine shadows
Till the darkness is gone

If you dance to forget
Let the light play on
Through the pine shadows
Till the darkness is gone

Let the light play on
Till the darkness is gone

Don't you worry
My Sweet Lena
We'll be safe
Beauty we'll create

If you dance to forget
Let the light play on
Through the pine shadows
Till the darkness is gone

If you dance to forget
Let the light play on
Through the pine shadows
Till the darkness is gone

Let the light play on

Till the darkness is gone
