

I'm glad you are a girl  
I'm pleased to know you  
I like you for you  
I'm happy you're growing up

Reach and you won't lose me  
Destroy the objective, but still sur-vur-vive  
You are angry and that's okay

Forgetful or pretending  
Tired, ill, or angry, or cold  
More assured of what to do  
But I do care for you (What a beautiful gift for me)

Reach and you won't lose me  
Destroy the objective, but still survive  
You are angry and that's okay... yes  
I am not afraid of your anger  
What do you need? What do you want?  
I love you and I know that you can figure it out

Reach and you won't lose me  
Destroy the objective, but still survive  
You are angry and that's okay... yes  
I am not afraid of your anger  
What do you need? What do you want?  
I love you and I know that you can figure it out

Reach and you won't lose me  
Destroy the objective, but still survive  
You are angry and that's okay... yes  
I am not afraid of your anger  
What do you need? What do you want?  
I love you and I know that you can figure it out
