

# Only One Way

Code Orange Kids

This ceiling looks like a hole  
Only one way down  
Here it falls now  
Bet you can't stomach it raw

(This world just throws in all the pieces)

This city searches your soul  
Missing no words down  
For your heart now  
Collusion tears it apart

Don't want to know who you really are  
Don't want to know who you're paying for  
Before you asked did you know the words  
What I can feel is crushed

This world just throws it all to pieces  
Just want to breathe here, yeah  
Just want to breathe here, there, there  
There! There! One way

There! There! There! There!  
There! There! There! There!  
There! There! There! There!  
There! There!

Only one way to beat the pain  
Only one

This world just throws it all to pieces  
Just want to breathe here, yeah  
Just want to breathe here  
There! There! There! There!  
There! There! There! There!  
There! What!

Only one way  
Only one way  
Only one way  
Only one way  
Only one way

Don't want to know who you really are  
Don't want to know what you want  
What you're begging for  
The pheromones eating through your blood  
It breaks down, break down, break

Don't want to know who you really are  
Don't want to know what you want, what you're begging for
