

## It Kills To Know...

Code

So you think you are the only one who feels like you do  
The only one that's been getting screwed  
The only one who knows how it feels  
To be so hurt, no one could feel like you

Just take one step back and open up your eyes  
There's so many of us out here with the same problems in  
our lives  
We're all searching for direction, how and which way to go  
The answer to life's riddle, is what it kills to know

Life's not fair, nothing's fair  
You said you listened but did you hear  
The fine print reads, there's no guarantee  
This life is what you make, but nothing comes for free?  
There is a price

Have you ever stopped and listened to yourself  
As you piss and moan from your self-pitied shell  
There's a reason life has it's twists and turns  
Keep your head up kid, there's so much left to learn  
You're not alone

Just for one f\*\*king moment stop and think about this life  
How unfortunate it is that many never think twice  
When they walk past someone homeless turn their head and walk a  
way  
Then go on with their lives? Oh Whoa is me!

(Chorus 2x)
