

## Obsolete Folksong

Codeseven

I know it is alive  
I can feel it all around me  
I know it is a lie  
(huh huh huh huh)  
They can't kill us all,  
If we stick together.  
They can't kill us all.  
They can't kill us all,  
But they'll try.  
They can't kill us all,  
If we stick together,  
They can't kill us all.  
La-la-la
