

# All My Delight

Cody Carnes

Your blood has my future written  
Your heart loves with no condition  
I'm invited into freedom, forgiven  
Whiter than the snow

There's a living fount I know  
Where grace and mercy overflow  
Love has come to set me free  
I've got this joy inside of me  
All my delight, all my delight is found in You  
All my delight, all my delight is found in You

Your joy is a force that can't be broken  
Your hope is a gift that won't be stolen  
Oh, it's contagious, infectious  
And it's burning in my soul

There's a living fount I know  
Where grace and mercy overflow  
Love has come to set me free  
I've got this joy inside of me  
All my delight, all my delight is found in You  
All my delight, all my delight is found in You

Find me in the flood  
Find me in the living water  
Death is overcome  
We're full of resurrection power  
Can you feel it now?  
This holy rush of perfect love  
Can you feel it now?  
Feel it crashing down on us

There's a living fount I know  
Where grace and mercy overflow  
Love has come to set me free  
I've got this joy inside of me  
Oh, there's a living fount I know  
Where grace and mercy overflow  
Love has come to set me free  
I've got this joy inside of me  
All my delight, all my delight is found in You  
All my delight, all my delight is found in You
