

## Wait Here

Cody Carnes

In Your arms, I am found  
When I'm at my end  
Take this heart, hold it now  
God, my only friend

Enemies every side  
Yet here I find my rest  
Fear will not fill my mind  
In Your presence, I'm safe from death

I will wait here  
All I need comes from You  
Why not stay here  
There's no place else I'd rather be  
I will wait here  
All I need comes from You  
Why not stay here  
There's no place else I'd rather be

Faithful, always  
Faithful, always  
Faithful, always  
Always, always  
Faithful, always  
Faithful, always  
Faithful, always  
Always, always

I will look for victory in nothing else but You  
I will find my hope and strength in nothing else but You  
I will look for victory in nothing else but You  
I will put expectancy in nothing else but You

I will wait here  
All I need comes from You  
Why not stay here  
There's no place else I'd rather be
