

# Alone On Christmas With You

Cody Fry

Snowy sidewalks  
Two pairs of tracks over the hill  
Just you and me out in the still evening chill  
What a thrill  
Alone on Christmas with you  
Powdered treetops  
Lined up, like soldiers, down the lane  
Their branches trimmed with candy canes, little trains  
I've waited all day  
To be alone on Christmas with you

I love the parties  
I love the gifts  
I love the family  
And all the craziness  
But for the holiday to go my way  
There's one thing on my list  
Some secret mistletoe where we can go  
And finally steal a kiss

All is quiet  
The snow falls silent on the town  
We are the only ones around  
You and me finally  
Alone on Christmas with you

I love the parties  
I love the gifts  
As for my family  
Could they be crazier than this?  
But for the holiday to go my way  
There's only one thing on my list  
Some secret mistletoe where we can go  
And finally steal a kiss

All is quiet  
The snow falls silent on the town  
It really feels like Christmas now  
Just you and me finally  
Alone on Christmas with you  
Alone on Christmas with you  
Alone on Christmas with you
