

Falling In Love

Cody Fry

You and I, we go together
Like birds and the sky
From the moment that you caught my eye
Knew that I was falling in love

You and I, a feeling warmer
Than sun in July
Since the day that you came in my life
Knew that I was falling in love

You and I
We'll be together
You and I
Forever

You and I, our sorrows half
And our joys multiply
Nothing silver and gold could ever buy
You and I are falling in love

You and I
We'll be together
You and I

You and I, our sorrows half
And our joys multiply
Promise you 'til the day that I die
You and I will be falling in love
Falling in love
Falling in love
