

(I wanna go)  
Do something kinda crazy  
(I wanna go)  
Drive all night with you right next to me  
(I wanna go)  
Feel the poundin' of your heartbeat  
When we get up high, won't look down, we won't look back  
Yeah when I die, I wanna know I lived like that

I wanna run in wide spaces  
Fly like the wind in high places  
Rushin' like water on my face  
With your hand in my hand

Ooh, I wanna dance into the mornin'  
Kiss ya like ya never been kissed before me  
I would go anywhere you wanna go  
With your hand in my hand

I wanna go  
Make pictures look like postcards  
I wanna go  
Take the train and watch you sleep right in my arms  
I wanna go  
Where we don't know where we are  
Climb something high, don't look down and don't look back  
Yeah when I die, I wanna know I lived like that

I wanna run in wide spaces  
Fly like the wind in high places  
Rushin' like water on my face  
With your hand in my hand (with your hand in my hand)

Ooh, I wanna dance into the mornin'  
Kiss ya like ya never been kissed before me  
I would go anywhere you wanna go  
With your hand in my hand

(Anywhere you wanna go)  
So many things in this world I wanna do  
And when I die I wanna know you did them too  
Baby, me and you

(Yeah)  
I wanna run in wide spaces  
Fly like the wind in high places (fly like the wind)  
Rushin' like water on my face  
With your hand in my hand (with your hand in my hand)

Ooh, I wanna dance into the mornin'  
Kiss ya like ya never been kissed before me  
I would go anywhere you wanna go  
With your hand in my hand (with your hand in my hand)

I wanna run in wide spaces (yeah)  
Fly like the wind in high places  
Rushin' like water on my face

With your hand in my hand (just [?])

Ooh, I wanna dance into the mornin'  
Kiss ya like ya never been kissed before me  
I would go anywhere you wanna go  
With your hand in my hand (oh)
