

We Dance

Cody Fry

Fire, we gather 'round
I hear the sound of your voice in mine
As we say liar, this world's a liar
To contentment found
Just to vaporize right before your eyes (yeah)

Yeah, I wanna dance on the grave of the
Way we were before love came to save our souls
Now we are free
Do you wanna dance with me?
Yeah, I wanna stomp on the snakes that were
Takin' skin from our heels, now we don't run anymore
Now we dance
Do you wanna dance with me? (yeah, yeah)

Flames, let's burn it down
The smoke will clear and life will rise from the ground
Yeah, right here, we'll build our own
Upon a rock, even if we're alone
No, we're never alone

Yeah, I wanna dance on the grave of the
Way we were before love came to save our souls
Now we are free
Do you wanna dance with me?
Yeah, I wanna stomp on the snakes that were
Takin' skin from our heels, now we don't run anymore
Now we dance
Do you wanna dance with me? (yeah)

Oh-oh-oh
Oh-oh-oh (do you wanna dance with me?)
Oh-oh-oh-oh (oh, woah-oh)

Oh-oh-oh
Oh-oh-oh
Oh-oh-oh-oh

Yeah, I wanna dance on the grave of the
Way we were before love came to save our souls
Hey, now we are free
Oh, do you wanna dance with me?
Yeah, I wanna stomp on the snakes that were
Takin' skin from our heels, but we don't run anymore
Yeah, now we dance
Do you wanna dance with me? (yeah, c'mon)
