

Big Last Name

Cody Jinks

Daddy must've told her when she was sixteen
"Don't settle for a poor man's diamond ring
Take a lesson from your mamma, girl, it ain't no shame
To find a man with some money and a big last name"

She wore that crown at the Rose Parade
All them boys starin' at her thinkin' "Maybe someday"
All their credit put together couldn't get her to the game
She wants a man with some money and a big last name

She's had the pick of the litter since the day she was born
Ain't nothin' good enough in this town
She's a product of her mama, she gets what she wants
Ain't layin' that silver spoon down
She wants to be in a picture in a gold-leaf frame
With a man with some money and a big last name

She's had the pick of the litter since the day she was born
Ain't nothin' good enough in this town
She's a product of her mama, she gets what she wants
Ain't layin' that silver spoon down
She wants to be in a picture in a gold-leaf frame
With a man with some money and a big last name
Man with some money and a big last name

Well she met a rich banker down in San Antone
He had a pre-nup ready for her name to be on
Then she came home early to a pretty young thing
In bed with some money and a big last name
In bed with some money and a big last name
In bed with some money and a big last name
