

How It Works

Cody Jinks

Well they said we'd never make it
And they just wonder how it works alright
Yeah time does tell a story
And time does fly
We're just fine alright

You need to know that she still drives me crazy
In every good way, yeah
Ain't nobody else on earth gets to me
The way she moves me
Yeah yeah

Well love said that we'd make it
They still wonder how it works alright
Yeah time will tell our story
And time does fly
And we're still fine alright

You need to know she still drives me crazy
In every good way, yeah
Ain't nobody else on earth gets to me
The way she moves me
Yeah yeah

And even though she still drives me crazy
In every good way, yeah
Ain't nobody else on earth gets to me
The way she moves me
Yeah yeah
